Primary Owner Instructions

Licences in the RLS system are filed under the primary owner RLS account. The primary owner has full access to and control of all licences that are filed under that RLS account. A primary owner can grant access to other external users to the licences that are filed under the primary owner's external user account. Users that are granted access to a licence are referred to as delegated users.

Before you begin, please ensure that the individual you wish to add as an account delegate has an RLS account. If the individual does not currently have a user account, please review the RLS Basics Guide for detailed instructions on how to set up an account. The RLS Basics Guide is available on our website.

1. Enter your User ID and Password on the RLS login page. You will be brought to the RLS home screen. Click on the "Your Licences" button.

2. You will be brought to the "Primary Account" screen. Select the "Account Delegates" from the navigation portal on the left hand side of the screen.
