The Statistical Report and Impacts from Transition to IFRS 17

Pursuant to *The Insurance Act*, the Superintendent may prepare and publish a statistical report respecting the insurance undertaken by each licensed insurance company during the previous year (the "report").

This report shall include the particulars of the business of each licensed insurer.

As part of its oversight of the insurance industry, the Superintendent's office prepares this report. This report is not an in-depth financial analysis of insurers' profitability, but rather a compilation of information extracted from insurers' annual returns. It can serve as one indicator to support the financial stability of insurers operating in Saskatchewan. The information presented in this report was extracted from information filed with the Office of the Superintendent of Financial Institutions (OSFI) for federally regulated insurers and from annual filings made with our office for extraprovincial and provincially regulated entities. Every effort was made to ensure the accuracy of the information presented; however, readers are cautioned that a full analysis of insurer health should not be made solely with the information contained in this report.

Effective January 1, 2023, the International Accounting Standards Board (IASB) introduced IFRS 17, replacing IFRS 4 for insurance industry financial reporting. The 2024 reporting period is the second year of transition, reflecting ongoing adjustments to IFRS 17 implementation.

Insurance companies with fiscal years starting on or after January 1, 2023, were required to adopt IFRS 17 in 2023. This means only companies whose year-end began after that date transitioned during 2023. For the 2024 report, all insurance companies licensed in Saskatchewan will have year-end dates commencing after January 1, 2023, and will report under IFRS 17.

IFRS 17 has brought significant changes to the accounting for insurance and reinsurance contracts. The main difference is that the new standard introduced consistent accounting treatments to areas such as insurance revenue recognition and liability valuation. It should be noted that the data reported under IFRS 17 is not directly comparable to that reported under IFRS 4, so it will take several reporting cycles before a meaningful year over year analysis of the reports can be made.

IFRS 17 provides a standardized approach to accounting for insurance contracts, improving consistency and comparability across insurers. The goal of IFRS 17 is to better align revenue and expenses with the actual delivery of insurance services, creating a more accurate picture of an insurer's performance. Under the previous standard, IFRS 4, insurers had flexibility in how they recognized revenue and calculated reserves. For example, including a risk adjustment in liabilities was discretionary under IFRS 4, but it is now mandatory under IFRS 17.

IFRS 4

Under IFRS 4, profit from insurance contracts was recognized at the start of the contract. Using the Property and Casualty ("P&C") and Life returns, insurers reported written premiums and incurred losses by province and territory, as these figures were used to calculate net income.

Past reports were based on this information, showing **Direct Premiums Written** and **Direct Claims Incurred** by product line. Reinsurance was calculated on a net basis. We reported on the ratio of claims expenses to premiums ("Loss Ratio").

IFRS 17

IFRS 17 introduced significant changes to reporting. Insurers now report **Insurance Revenue** which represents premiums received adjusted for the time value of money and premium variances relating to current and past services. The standard requires mandatory early recognition of losses on onerous

contracts. It excludes any investment component, and reinsurance is calculated separately.

Insurance Service Expense includes costs for incurred claims, acquisitions, and underwriting expenses.

As a result of these changes, the Superintendent is more focused on the ratio of insurance service expenses to insurance revenue ("Gross Insurance Service Ratio"). The 2023 tables are modified to reflect these changes. This may make year-over-year financial information harder to compare.

Certain stakeholders continue to rely on **Direct Premiums Written** for specific purposes, such as taxation. For this reason, we will continue to report Direct Premiums Written in the exhibits.

Due to changes in the Life-1 reporting forms, Life insurers did not report insurance revenue/ insurance service expense at the provincial level. For this reason, we will continue to report direct premiums written for life insurance and reassess whether additional reporting is necessary for future reports.

Our report previously presented detailed tables with 20 years of historical data for total premiums and claims by class. Since the accounting standard had a two-year adoption period (2023-2024), the comparative tables have resumed in the 2025 report.
