

1.0 Introduction

Saskatchewan has adopted, by reference, the federal government's rules with respect to the investment of pension plans.

Section 44 of *The Pension Benefits Act, 1992* (the "Act") provides:

"Assets of a plan must be invested, and the investments must be made in accordance with the regulations".

Section 38 of *The Pension Benefits Regulations, 1993* (the "Regulations") prescribes:

"(1) Notwithstanding the provisions of any plan or any instrument governing a plan, the assets of a plan must be invested and the investments made in accordance with this section and section 44 of the Act.

(2) The assets of a plan must be invested and the investments made in accordance with the regulations made pursuant to the *Pension Benefits Standards Act, 1985* (Canada) as amended from time to time.

(3) For purposes of this section, any reference in the regulations made pursuant to the *Pension Benefits Standards Act, 1985* (Canada) to the Superintendent is deemed to be a reference to the superintendent."

Subsection 38(1) of the Regulations ensures that the scope of the legislation includes the process followed to make investments, as well as, the securities in which a plan is invested.

The phrase "as amended from time to time" in subsection 38(2) means that each time the federal government amends the investment rules under the *Pension Benefits Standards Regulations, 1985* (the "PBSR"), those amendments apply to plans subject to Saskatchewan legislation.

Sections 12, 13 and 14 of Schedule III of the PBSR refer to the filing of documents with the "Superintendent". That reference is to the federal Superintendent of Financial Institutions. Subsection 38(3) ensures that plans registered in Saskatchewan file with the Superintendent of Pensions of the Financial and Consumer Affairs Authority of Saskatchewan.

For purposes of reference, Appendix A contains excerpts from the PBSR that FCAA considers to govern the investment of plans. Section 6, 7, 7.1 and 7.2 and Schedule III of the PBSR contain the applicable investment rules. You will note that Saskatchewan's regulations are not limited to reference to Schedule III of the PBSR.

This bulletin has no legal authority. Applicable legislation should be used to determine specified requirements. Further information about the *Pension Benefits Standards Act, 1985* (Canada) (the "PBSA") and PBSR can be found on the Office of the Superintendent of Financial Institutions Canada (OSFI) website at www.osfi-bsif.gc.ca.

2.0 Written Investment Policy

The administrator of a plan must establish a written statement of investment policies and procedures (SIP&P) in respect of the plan's portfolio of investments and loans, other than those relating to any account for which a member makes their own investment choices (see Section 5.0 - Member Investment Choice). The administrator must ensure that the plan's SIP&P is written having regard to all factors that may reflect the funding and solvency of the plan and the ability of the plan to meet its financial obligations. The written statement should include:

- a description of the factors taken into account when establishing the statement, including the type of pension plan, the nature of the plan's liabilities, the demographics of the plan's members and retired members and the employer's funding policy
- the categories of permitted and prohibited investments and loans, including reference to derivatives, options and futures
- the diversification requirements of the investment portfolio
- the asset mix policy and the rate of return expectations
- the plan's liquidity requirements
- a policy with respect to the lending of cash or securities
- a policy with respect to the retention or delegation of voting rights acquired through plan investments
- the method of, and basis for, the valuation of investments that are not regularly traded at a public exchange
- a policy with respect to permitted related party transactions, including the criteria used to establish whether a transaction is nominal or immaterial to the plan
- a policy with respect to conflict of interest, including criteria for the disclosure of conflict of interest

The administrator must review and confirm or amend the written statement of investment policies and procedures at least once each plan year. OSFI has published a guideline for developing a SIP&P, which can be found at <http://www.osfi-bsif.gc.ca/eng/pp-rr/ppa-rra/inv-plc/pages/penivst.aspx>. FCAA endorses this guideline and expects plan administrators to comply with it when establishing a SIP&P.

3.0 Quantitative Restrictions

The regulations provide some quantitative restrictions for investments:

1. The administrator of a plan may not invest more than 10% of the total market¹ value of the plan's assets in any one person, two or more associated persons or two or more affiliated corporations, except for:
 - insured monies
 - a segregated or investment fund that itself complies with the requirements
 - an unallocated general fund of an insurer
 - an investment corporation, real estate corporation or resource corporation
 - issues guaranteed by the federal or a provincial government
 - a fund composed of mortgage-backed securities that are fully guaranteed by the federal or a provincial government
 - an index fund

The 10% limit applies to the combined debt and equity with a single entity, and the rule applies separately to each defined contribution account for which a member is responsible for making their own investment decisions.

2. The administrator of a plan may not invest more than 30% of the moneys of the plan in the securities of a corporation to which are attached more than 30% of the votes that may be cast to elect the directors of the corporation. However, this 30% limit may be exceeded with respect to real estate, resource and investment corporations, provided the conditions prescribed under Sections 11 to 14 of Schedule III, as applicable, are met.

4.0 Self-Dealing

The regulations prohibit related party transactions, including loans to employees, with three exceptions:

1. the transaction is required for the operation of the plan and its terms and conditions are not less favourable than market terms and conditions;
2. investments in the securities of a related party are permitted when acquired at a public exchange; or
3. the value of the transaction is nominal or the transaction is immaterial to the plan.

¹ The PBSR was amended such that, effective July 1, 2016, the quantitative restriction will be based on market value instead of book value. Prior to July 1, 2016, the quantitative restriction is based on book value. The market value test applies only at the time of purchase.

5.0 Member Investment Choice

The PBSR provides that a plan administrator must establish and maintain a written statement of investment policies and procedures that pertain to the plan's portfolio of investments and loans, other than those relating to any account for which a member makes their own investment choices.

Under the Act, it is permissible for a plan to permit members or former members to make investment choices with respect to their account maintained in respect of a defined contribution provision or with respect to their account maintained for additional voluntary contributions. Such a provision is a capital accumulation plan (CAP). The superintendent expects that a plan administrator complies with the guideline published by the Canadian Association of Pension Supervisory Authorities titled [Guideline No. 3: Guidelines for Capital Accumulation Plans](#).

Where a plan permits members or former members to make investment choices with respect to their pension accounts, the SIP&P for that plan need not reflect the investment policies and procedures that pertain to the CAP.

6.0 Exception

Schedule III of the PBSR does not apply to an insured plan or to investments held in an unallocated general fund of an insurer.
