FORM 41-101F4
INFORMATION REQUIRED IN A VENTURE ISSUER PROSPECTUS

GENERAL INSTRUCTIONS

- (1) *The objective of the prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this form.*
- (2) *Terms used and not defined in this form that are defined or interpreted in the Instrument bear that definition or interpretation. Other definitions are set out in NI 14-101.*
- (3) *In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect.*
- (4) *Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*
- (5) *The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Companion Policy 41-101CP General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included.*
- (6) *No reference need be made to inapplicable items and, unless otherwise required in this form, negative answers to items may be omitted.*

- (7) *Where the term “issuer” is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to persons or companies that the issuer is required, under the issuer’s GAAP, to consolidate, proportionately consolidate or account for using the equity method (for example, including “subsidiaries” as that term is used in Canadian GAAP applicable to publicly accountable enterprises). If it is more likely than not that a person or company will become an entity that the issuer will be required, under the issuer’s GAAP, to consolidate, proportionately consolidate or account for using the equity method, it may be necessary to also include disclosure with respect to the person or company.*
- (8) *An issuer that is a special purpose entity may have to modify the disclosure items to reflect the special purpose nature of its business.*
- (9) *If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*
- (10) *If an issuer discloses financial information in a preliminary prospectus or prospectus in a currency other than the Canadian dollar, prominently display the presentation currency.*
- (11) *Except as otherwise required or permitted, include information in a narrative form. The issuer may include graphs, photographs, maps, artwork or other forms of illustration, if relevant to the business of the issuer or the distribution and not misleading. Include descriptive headings. Except for information that appears in a summary, information required under more than one Item need not be repeated.*
- (12) *Certain requirements in this form make reference to requirements in another instrument or form. Unless this form states otherwise, issuers must also follow the instruction or requirement in the other instrument or form. These references include references to Form 51-103F1.*
- (13) *Wherever this form uses the word “subsidiary”, the term includes companies and other types of business organizations such as partnerships, trusts and other unincorporated business entities.*
- (14) *Where requirements in this form make reference to, or are substantially similar to, requirements in Form 51-103F1, issuers may apply the general provision in section 2 of Form 51-103F1. However, issuers must supplement this disclosure if the supplemented disclosure is necessary to ensure that the prospectus provides full, true and plain disclosure of all*

material facts related to the securities to be distributed as required under Item 29 of this form.

- (15) *Forward-looking information, as defined in NI 51-103, included in a prospectus must comply with section 36 of NI 51-103 and must include the disclosure described in subsection 36(2) of NI 51-103. In addition to the foregoing, FOFI or a financial outlook, each as defined in NI 51-103, included in a prospectus must comply with subsection 36(3) of NI 51-103. If the forward-looking information relates to an issuer or other entity that is not a reporting issuer in any jurisdiction, section 36 of NI 51-103 applies as if the issuer or other entity were a venture issuer in at least one jurisdiction.*

 - (e) *for distributions of preferred shares*
 - (i) *the appropriate denominator is dividends declared during the period, together with undeclared dividends on cumulative preferred shares, after giving effect to the new preferred share issue, plus the issuer's annual borrowing cost requirements, including the borrowing costs that have been capitalized during the period, less any retirement of obligations, and*

- (4) *The denominator represents a pro forma calculation of the aggregate of an issuer's borrowing cost obligations on all financial liabilities and dividend obligations (including both dividends declared and undeclared*

dividends on cumulative preferred shares) with respect to all outstanding preferred shares, as adjusted to reflect

- (a) *the issuance of all financial liabilities and, in addition in the case of an issuance of preferred shares, all preferred shares issued, since the date of the annual financial statements or interim financial report;*
- (b) *the issuance of the securities that are to be distributed under the prospectus, based on a reasonable estimate of the price at which these securities will be distributed; and*
- (c) *the repayment or redemption of all financial liabilities since the date of the annual financial statements or interim financial report, all financial liabilities to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus and, in addition, in the case of an issuance of preferred shares, all preferred shares repaid or redeemed since the date of the annual financial statements or interim financial report and all preferred shares to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus.*
