Schedule B-3

Form 41-101F2 — Information Required in an Investment Fund Prospectus

General Instructions

(1) The objective of the prospectus is to provide information concerning the investment fund that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. This Form does not prohibit including information beyond what the Form requires. Further, certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.

(2) Terms used and not defined in this Form that are defined or interpreted in the Instrument must bear that definition or interpretation. Other definitions are set out in NI 14-101 Definitions.

(3) In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the investment fund's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.

(4) Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this Form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.

(5) The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Companion Policy 41-101CP General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included.

(6) No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.

(7) The disclosure required in this Form must be presented in the order and using the headings specified in the Form. ~~However, scholarship plans may make modifications to the disclosure items in order to reflect the special nature of their investment structure and distribution mechanism.~~ If no sub-heading for an Item is stipulated in this Form, an investment fund may include sub-headings, under the required headings, at its option.

(8) Where the term "investment fund" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to the investment fund's subsidiaries and investees. If it is more likely than not that a person or company will become a subsidiary or investee, it may be necessary to also include disclosure with respect to the person or company. For this purpose, subsidiaries and investees include entities that are consolidated, proportionately consolidated, or accounted for using the equity method.

(9) If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.

(10) If the term "class" is used in any item to describe securities, the term includes a series.

(11) Where performance data is presented in the prospectus, annual compound returns must be presented for standard applicable performance periods of 1, 3, 5 and 10 year periods and the period since inception unless otherwise specified by the requirements of this Form. Performance data for periods of less than one year must not be presented. Hypothetical or back-tested performance data must not be presented.

(12) An investment fund that has more than one class or series that are referable to the same portfolio may treat each class or series as a separate investment fund for the purposes of this Form, or may combine disclosure of one or more of the classes or series in one prospectus. If disclosure pertaining to more than one class or series is combined in one prospectus, separate disclosure in response to each item in this Form must be provided for each class or series unless the responses would be identical for each class or series.

(13) A section, part, class or series of a class of securities of an investment fund that is referable to a separate portfolio is considered to be a separate investment fund for the purposes of this Form. An investment fund that has more than one class or series of securities referable to separate portfolios may combine disclosure of one or more of the classes or series in one prospectus if each class or series is managed by the same manager. If disclosure pertaining to more than one class or series is combined in one prospectus, separate disclosure in response to each item in this Form must be provided for each class or series unless the responses would be identical for each class or series.

1.12 — Commodity Pool

(1) For a commodity pool, state in substantially the following words:

You should carefully consider whether your financial condition permits you to participate in this investment. The securities of this commodity pool are highly speculative and involve a high degree of risk. You may lose a substantial portion or even all of the money you place in the commodity pool.

The risk of loss in trading [nature of instruments to be traded by the commodity pool] can be substantial. In considering whether to participate in the [commodity pool], you should be aware that trading [nature of instruments] can quickly lead to large losses as well as gains. Such trading losses can sharply reduce the net asset value of the [commodity pool] and consequently the value of your interest in the [commodity pool]. Also, market conditions may make it difficult or impossible for the [commodity pool] to liquidate a position.

The [commodity pool] is subject to certain conflicts of interest. The [commodity pool] will be subject to the charges payable by it as described in this prospectus that must be offset by revenues and trading gains before an investor is entitled to a return on his or her investment. It may be necessary for the [commodity pool] to make substantial trading profits to avoid depletion or exhaustion of its assets before an investor is entitled to a return on his or her investment.

(2) For the initial prospectus, state in substantially the following words:

The [commodity pool] is newly organized. The success of the [commodity pool] will depend upon a number of conditions that are beyond the control of the [commodity pool]. There is substantial risk that the goals of the [commodity pool] will not be met.

(3) If the promoter, manager, or a portfolio adviser of the commodity pool has not had a similar involvement with any other publicly offered commodity pool, state in substantially the following words:

The [promoter], [manager] [and/or] [portfolio adviser] of the [commodity pool] has not previously operated any other publicly offered commodity pools [or traded other accounts].

(4) If the commodity pool will execute trades outside Canada, state in substantially the following words:

Participation in transactions in [nature of instrument to be traded by the commodity pool] involves the execution and clearing of trades on or subject to the rules of a foreign market.

None of the Canadian securities regulatory authorities or Canadian exchanges regulates activities of any foreign markets, including the execution, delivery and clearing of transactions, or has the power to compel enforcement of the rule of a foreign market or any applicable foreign law. Generally, any foreign transaction will be governed by applicable foreign laws. This is true even if the foreign market is formally linked to a Canadian market so that a position taken on a market may be liquidated by a transaction on another market. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs.

For these reasons, entities such as the commodity pool that trade [nature of instrument to be traded by the commodity pool] may not be afforded certain of the protective measures provided by Canadian legislation and the rules of Canadian exchanges. In particular, funds received from customers for transactions may not be provided the same protection as funds received in respect of transactions on Canadian exchanges.

(5) State that the commodity pool is a mutual fund but that certain provisions of securities legislation designed to protect investors who purchase securities of mutual funds do not apply.

(6) Immediately after the statements required by subsections (1)-(5), state in substantially the following words:

These brief statements do not disclose all the risks and other significant aspects of investing in the [commodity pool]. You should therefore carefully study this prospectus, including a description of the principal risk factors at page [page number], before you decide to invest in the [commodity pool].

1.13 — Restricted Securities

Describe the number and class or classes of restricted securities being distributed using the appropriate restricted security terms in the same type face and type size as the rest of the description.

“The ~~manager~~[investment fund, investment fund manager or any other person or company required to provide a certificate under Part 5 of the Instrument or other securities legislation] is incorporated, continued or otherwise governed under the laws of a foreign jurisdiction or resides outside Canada. Although the ~~manager~~[person or company described above] has appointed [name(s) and address(es) of agent(s) for service] as its agent for service of process in ~~Canada~~[list jurisdictions], it may not be possible for investors to realize on ~~judgements~~judgments obtained in Canada against the ~~manager~~.[person or company described above].”

1.15 — Documents Incorporated by Reference

For an investment fund in continuous distribution, other than a scholarship plan, state in substantially the following words:

Additional information about the Fund is available in the following documents:

- the most recently filed annual financial statements;
- any interim financial statements filed after those annual financial statements;
